Personal Information

- Full name: Cleber Matías Silva López
- Age: 18
- Nationality: Uruguayan
- Languages: Spanish (native), English (fluent)
- E-mail address: matiaslv@protonmail.com
- Linkedin: https://www.linkedin.com/in/clemat/

Professional Objective

- High school student with a focus on physics and mathematics, with a strong interest in computing and programming. I am seeking an opportunity in the field of information technology where I can apply and enhance my programming skills, especially in backend, as it is what I like the most.

Education

- Currently in the final year of high school on engineering branch. Liceo Fray Marcos.

Technical Skills

- Programming: Python, HTML, CSS.
- Experience in the use and management of Linux operating systems (Arch Linux, Ubuntu) and Microsoft Windows.
- Knowledge in reverse engineering of APIs.
- Experience in the creation of REST APIs in Flask.
- Experience in web scraping with Python.
- Experience in automation and data scraping using Selenium.
- Proficient in using tools such as Visual Studio Code and Burp Suite.

Personal Skills

- Ability to learn autonomously and constantly.
- Excellent written English abilities and native communication skills in Spanish.
- Detail-oriented with problem-solving skills.
- Ability to work in a team and adapt to different environments and situations.

Interests

- Deeply interested in software development and programming, with a focus on enhancing user experience and building efficient systems.
- Enthusiastic about continuous learning and personal growth in the field of IT, with a special interest in emerging technologies and their potential applications.
